

SHOP & DROP

Fact would like to say a massive thankyou to everyone who has supported our shop & drop service. For those of you that do not know about this service I will talk you through the simple steps on how to make your order:

- Please  the office on 01354 661234 with a list of up to 20 items (no frozen items sorry)
- Our volunteers will then go and do your shopping for you at Tesco.
- We then deliver to your door.
- Then all you need to do is call the office with your card details and pay over the phone.

“The Shop & Drop service will be ongoing in the future “

UPCOMING

At the moment our DAR service is still suspended, as soon as we can start transporting again we will let you all know, hopefully things will start running in July.

From July we may be able to start our DAC service again as this is usually one on one, although safety precautions will still be put in place.

We may also be able to start our clubs back with a minimum of six people at a time. While you are here enjoying games and refreshments we can get our volunteer's to go out and do your shopping for you so you don't have to lift a finger.

Things are different but we are working to develop ways to enable the Charity to offer safe services for both members and staff.

*Renewals will be sent out as normal
If anyone knows someone who
would like to join please give us a
call“.*
