If you can contribute/correct anything on this list then please contact me.
 The Whittlesey Museum is closed at present and I am not aware when it will be open to the public.
 This list was obtained some time ago when visiting the museum.

I have tidied it up from the original.

I remember my father telling me that during the late 1950's there were 52 'Pubs' in the area (one for every week of the year) open at the same time.

There are 78 on this list (some duplication as they changed their name)
