

**We're warning the public to be vigilant of unsolicited emails promoting cryptocurrency (Bitcoin) investment opportunities.** We've received over 750 reports this week about Bitcoin-related phishing emails that use fake celebrity endorsements to try and lure victims into investment scams. The links in the emails lead to fraudulent websites that are designed to steal your money, as well as personal and financial information.

### **How you can protect yourself:**

- **Investment opportunities:** Don't be rushed into making an investment. Remember, legitimate organisations will never pressure you into making a transaction on the spot.
- **Seek advice first:** Speak with a trusted friend or family members, and seek independent professional advice before making significant financial decisions.
- **FCA register:** Use the Financial Conduct Authority's (FCA) register to check if the company is regulated by the FCA. If you deal with a firm (or individual) that isn't regulated, you may not be covered by the Financial Ombudsman Service (FOS) if things go wrong and you lose your money.
