

Dear resident,

We're starting work on our project to increase the size of the roundabout at Guyhirn junction on the A47/A141.

We have commenced our vegetation clearance adjacent to the Guyhirn roundabout at Old March Road, ahead of starting construction work in early March 2021.

Due to the nature of the work, some noise and light disturbance is unavoidable. However we will try to keep this to a minimum.

For safety reasons, we will need to close the road at the start of our work to install temporary barriers. We've provided provisional dates for these road closures on the back of this postcard.

We will need further road closures later in the year, and will provide further information closer to the time. We aim to finish our work in April 2022.

We would like to thank you in advance for your cooperation and patience whilst we carry out these road improvements.
