

Public invited to have a say

People in Fenland are being given the chance to help shape improvements to cycling, walking and mobility access, with the launch of a new engagement survey.

Fenland District Council is developing a new strategy which aims to capitalise on the increase in sustainable travel during lockdown and help people to continue making more journeys by bike, on foot or with a mobility aid.

Residents, businesses, and community groups are being encouraged to share their views by completing the online survey by
Sunday, 21 March.

People working in and visiting Fenland are also being urged to have their say.

or scan this QR code

Views submitted through the survey will help to create a draft Fenland Cycling, Walking and Mobility Improvement Strategy. The public can then view and comment on the draft before a final version is complete in late summer 2021.

Anyone who would like to complete the survey but does not have access to the survey online can contact the Council's Transport Team on 01354 622318 (answer phone) for a call back to complete the survey over the phone.

For any questions regarding the survey or the strategy, please email:
