**With Cambridgeshire now having
an elected Mayor, is there a need
for a county council?**

How much is it costing us?

What benefits are provided?

Let us have a look at what the elected councillors have done in the last four years.

One of their first actions was to vote themselves an allowance rise over the recommended amount set by the Independent assessor.

Just look at the ruling party and their conduct. What exactly is the situation that has lead to the deputy leader resigning and the Leaders actions being questioned. Over a county farm tenancy.

We regularly hearing of the divisions that exists within the council between those representatives of South Cambridgeshire, Cambridge City, East Cambridgeshire and Huntingdon.

Where are the representatives from Fenland fighting our corner?
The benefits for our area all seem to be generated by the Mayor.

The Conservatives are lauding the progress of the Kings Dyke Crossing Project, but let us not forget that had not the Mayor calling time on the Kier contract where would we be?

It is only the fact that the Mayor refused to keep funding the project and insisting that the contract was re-tendered to get a better value for money. It is only due to those actions that we have Jones Bros conducting the work.

The Roads in our area must be some of the worst in Cambridgeshire. Major road works keeps being pushed backward with a number our roads having needed resurfacing for a number of years and the maintenance either lacking in priority or being deferred. To say we are being let down is an understatement. There are many instances where the value for money can be questioned and the quality of the work conducted by highways contractors not of the required standard, and needing to be re done.

As the Constituents of my District ward will testify I am ready to react quickly to any approach. A number of contact method are currently available and others will be made available.

BOB WICKS
YOUR ALTERNATIVE OPTION

I am currently working not only with the Get It Sorted Group in Fenland but a number of Schools, Residents and Organisations not only to improve Recycling rates, but Environmental projects to enhance the wild life our area and amenities also the establishing of a village fete to be held in Coates.

Actively working with the Primary Schools in the ward to assist with their funding requests. The Friends of the Schools to assist with their fund raising activities. Local Clubs and Groups to advise them on Avenues of Community funding that are Available.

Being Open Honest and Approachable

Listening to Constituents concerns and work to resolve their issues. Work with local businesses to point them in the direction of Avenues of Help, assistance and funding available.

Your Priorities are Mine

Make our environment safer,
Encourage Businesses to come to our area,
Support the businesses we already have.
Ensure that Fenland Develops, prospers and Grows.
Providing employment opportunities for all and improve transport, Infrastructure, Broadband and Mobile coverage to assist in Growth

WORKING FOR OUR COMMUNITY
AND PUTTING COMMUNITY
INTERESTS FIRST!

I am working closely with a number of organisations to assist them in all their community efforts and fund raising.

I am also working closely with a number of agencies to the benefit of businesses in Fenland. With the Lockdown coming to an end I am working with a number of businesses to ensure all the grants they are entitled to are known and direction as to how to claim them. Also what business development and advice is available and who to contact.

I am also currently fighting an issue a number of constituents have with FDC,

I am also actively addressing a number of matters with Anglian Water because of events in a number of my ward villages over the Christmas period which directly detrimentally affected my constituents. While there have been some successes there are still matters which need to reach an acceptable conclusion. but these still ongoing and actively being addressed.

BOB WICKS

YOUR INDEPENDENT
CANDIDATE

A TIME TO VOTE FOR THE PERSON and NOT A PARTY

I have served as a District Councillor for the Benwick, Coates and Eastrea Ward for the last two years.

My Constituents have benefited from the alternate way in which I represent them and fight their corner.

Unlike party candidates I have freedom to make my own choices and am not told how I should vote.

It is time to have someone who will fight your corner when required and truly represent you.

I have a solid record of acting for my constituents and listening to them.

I am easily contacted and re-act in a timely manner. You can ask me any question and always get an answer.
