

COVID-19 vaccination programme: patients without an NHS number and/or who are not registered with a GP

Dear Colleague

With the full opening of Cohort 12, every person in the UK over 18 years of age is eligible for a COVID-19 vaccine. It does not matter if they are a citizen or what their immigration status is, how long they have been here or how long they expect to stay. For any adult at all requesting vaccination (except those where their health condition, e.g. allergy, makes vaccination contraindicated) we should be providing a welcoming and accessible service.

I am writing to you to reiterate these key points and give you confidence to provide a universal service:

- You do not need to be registered with a GP to receive a COVID-19 vaccination, and you do not need an NHS number to receive a COVID-19 vaccination.
- You do not need to provide ID to receive a COVID-19 vaccination, although (except for Janssen single dose) you will need to provide enough information to be contacted for your second dose. This does not mean a person has to give their full or legal name or address.
- No one should be denied or turned away from any site or prevented from booking for these reasons

We know that one barrier colleagues encounter in feeling confident to vaccinate people without NHS numbers or GP registration is the technical means of recording the event. The system will permit this, and it is now possible to enter “Unknown” or “Not issued” in the NHS number field (having chosen ‘don’t use PDS’). For patients who cannot provide an NHS number, a warning will appear above the empty NIMS display to alert practitioners to the absence of vaccination history. Please ensure a thorough history is taken to avoid complications and duplicate vaccinations. If the individual has no fixed abode, will not provide an address or does not wish to provide an address, entering ‘NFA’ in the postcode field will generate a No Fixed Abode option with a pseudo-postcode to enable the form to be completed.

The service specification for Local Vaccination Sites includes registered and unregistered patients, and GPs are legally able to vaccinate individuals whether or not they are registered with them.

I am therefore confident that you will provide a COVID-19 vaccination (unless clinically contraindicated or without supply) to the person presenting you this letter.

EVERYONE WHO IS OVER 18 YEARS OLD IN ENGLAND IS ALLOWED TO HAVE A COVID-19 VACCINE

YOU DO NOT NEED TO HAVE AN NHS NUMBER. YOU DO NOT HAVE TO REGISTER WITH A GP (LOCAL DOCTOR). YOU DO NOT HAVE TO GIVE AN ADDRESS. YOU DO NOT HAVE TO SHOW ID.

YOU CAN TAKE THIS LETTER WITH YOU TO SHOW THAT YOU ARE ALLOWED TO HAVE A COVID-19 VACCINE
