My lobbying and holding the council to account is well-known fact..

Some of the priorities for which I continue to lobby are;

1/ Sensible planning for our town, especially along **Ramsey Road**, where builders are looking to build up to 300 houses. I have ALL the past history.

2/ **Saxon Works** - I have been involved in supporting residents for over 5 years and attended dozens of meetings, including the Saxongate Residents Group.

3/ Future funding for the **Manor** area - due to lack of investment, this has been neglected for too long.

4/ Giving our **Young People**, somewhere to chill out, relax and exercise, instead of roaming around causing issues.

5/ Keeping pressure on **New Queen Street Surgery** to give patients the care they deserve.

6/ Keeping our Town **Clean and Safe**. I can regularly be seen Litter Picking.

7/ **Pondersbridge** – Highways & Environmental concerns.

I own no land or property other than the small bungalow we live in.

I am not a director of any company.
I have no outside financial interests.

I am and have been 100% accountable for my actions and responsibilities.
