

I was a founder member and Chairman of Phoenix Youth Provision. We won awards, including “**Pride in Fenland**” Youth Group Award after less than a year of operating. I believe very strongly in empowering the people of our community to achieve their goals.

In my professional life I had the privilege to lead teams of PE teachers at local schools. We won awards for **outstanding leadership** programmes and I was asked to speak at consecutive Youth Sport Trust national conferences on the work we did on **developing resilience**.

My other passion is to support the **Health and well-being** of Whittlesey residents and I am a strong supporter of the **Saxongate residents group** who work in liaison with companies and the Environment Agency (especially at Saxon Pit) to help to reduce the negative environmental impact on local lives.

I believe that this town needs a proper, integrated, affordable set of **public transport** options to support its development as a place where people aspire to live. Why is it for only one day a year when we have enough buses in the town?

My track record is one of caring for and helping other people. I love the **friendliness and community spirit** in Whittlesey and I want to contribute more to that community.
