 Rob Wise

PM/DH/AG/CP/JB/
Gareth Martin

Questions:

IB – Shooting since 14 years old. Most people who shoot are conservation based. Cat killing birds in the garden. Badgers now seen everywhere, deer now everywhere. Bird count – pigeons increasing, magpies increasing. Farming plays huge part in numbers. Slightly different position to other parts of the country because so much farming.

TT – lots more wildlife now. Natural England support badgers which kill other wildlife.

AM – decline of birds, mist nets to catch small birds to eat them in other parts of the world.

Paul summary – members do want to engage re this topic. Frame specific asks going forward.
